

1. OVERALL SALES PERFORMANCE OVERVIEW

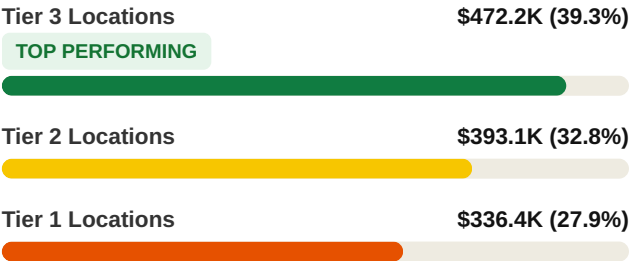

This executive report synthesizes key performance indicators (KPIs), operational trends, and product category demographics from the updated Blinkit Power BI Analytics dashboard. The data evaluates sales efficiency, regional distribution, dark store footprint performance, and customer satisfaction metrics to guide strategic growth.

2. OUTLET & LOCATION PERFORMANCE

Location Tier Distribution

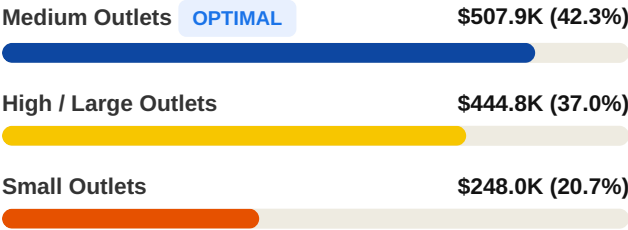

Sales distribution based on geographic tier classification.

Takeaway: Tier 3 markets represent the largest market share (\$472.2K), proving strong adoption of quick-commerce in growing regional hubs beyond Tier 1 metropolitan zones.

Outlet Size Efficiency

Comparative sales analysis across store size configurations.

Takeaway: Medium-sized dark stores generate higher cumulative revenue than large hubs (\$507.9K vs \$444.8K), delivering better capital efficiency and real estate ROI.

3. OUTLET FORMAT BREAKDOWN

OUTLET TYPE	TOTAL SALES (\$)	AVG SALES / STORE	NO. OF ITEMS	AVG RATING	ITEM VISIBILITY INDEX
Supermarket Type 1	\$782,340	\$142.10	5,577	3.9 ★	0.061
Grocery Store	\$151,939	\$139.80	1,083	3.9 ★	0.106
Supermarket Type 2	\$131,478	\$139.20	935	3.9 ★	0.061
Supermarket Type 3	\$129,800	\$139.50	928	3.9 ★	0.061

4. TOP PRODUCT CATEGORIES & CUSTOMER SATISFACTION

Item Type Revenue Highlights

ITEM CATEGORY	TOTAL SALES (\$)	SHARE (%)
Fruits & Vegetables	\$178,124	14.8%
Snack Foods	\$171,968	14.3%
Household Items	\$135,997	11.3%
Frozen Foods	\$118,516	9.9%
Dairy Products	\$101,230	8.4%
Canned Goods & Others	\$495,165	41.3%

Category Rating & Engagement

Customer review scores and feedback volumes.

CATEGORY	RATING	REVIEWS
Dairy Products	4.5 ★	1,068
Fruits & Veg	4.2 ★	1,232
Snack Foods	4.0 ★	1,200
Household	4.0 ★	910
Canned Items	4.0 ★	649

5. STRATEGIC ACTION PLAN & RECOMMENDATIONS

1. Accelerate Dark Store Footprint in Tier 3 Locations

With Tier 3 outlets driving \$472.2K (nearly 40% of overall sales), capital expenditure should prioritize expanding medium-sized dark stores in Tier 3 regional hubs where quick-commerce market penetration is compounding rapidly.

2. Double Down on Health-Conscious & Low-Fat Product Offerings

Low-fat items generate 64.6% (\$776.3K) of total revenue. Expanding healthy snack SKUs, organic produce, and low-calorie convenience lines will directly capture high-margin demand from wellness-focused consumers.

3. Standardize Outlet Operations Around Medium Store Formats

Medium-sized stores outperform large store formats by \$63K in total revenue while maintaining lower lease and overhead costs. Future store blueprints should standardise on the medium dark store model for maximum ROI.

4. Leverage Dairy & Fresh Produce as High-Frequency Anchor Categories

Dairy products boast the highest customer satisfaction score (4.5★) alongside high order volume in Fruits & Vegetables (\$178K). Utilizing these daily essentials as basket anchors with localized dark store stock management will boost recurring daily orders.
